Agricultural Society Will

Hold Annual Show

As instancing the enthusiasm of the directors of our local Agricultural Society it may be mentioned that without any special rally only four of the directors and officials were absent from the meeting of Directors held on Saturday.

Many matters were discussed and two very important resolutions were passed. P. M. Abel gave a stirring address on the subject of "Community Breeding" and the address having been much appreciated by the directors it is hoped to have Mr. Abel deliver another such address at an Institute Meeting to be held within three weeks when other speakers will also be present. The resolutions were as follows:

"Resolved that this meeting of directors of the Clareisholm Agricultural Society recommend the display of Pure Bred Sires in the district with a view to grading up stock."

"Resolved that this meeting of Directors of the Clareisholm Agricultural Society arrange to form a Seed Centre for the District of Clareisholm."

The last resolution was passed after Pres. W. J. Stephen had given a stirring address on seed defective and inferior stock.

The Secretary gave a report of the Annual Meeting of Agricultural Societies at Oids and made several suggestions concerning matters which had been discussed there, and following on this the Directors decided to hold the Annual Show at Clareisholm as usual on the dates allotted for the convention at Oids namely Thursday and Friday, August 12 and 13.

Altogether the Directors have entered on their work for 1915 with much enthusiasm.

Two Committees were appointed for the Exhibition as follows:

Prize List, Messrs. Watt, Shearer, and Holmes.

Light Horses, Messrs. Hunter, Elliott and Leeds.

Heavy Horses, Messrs. Gaudin, Vinborn and Carney.

Cattle, Messrs. Slipp, Freeman and Avel.

Sheep and Swine, Messrs. J. L. Salmon, Lee Elgin and O. J. Berg.

Grains and Grasses, Messrs. J. W. White, W. J. Stephen and N. Taittinger.

Roots and Vegetables, Messrs. R. Brown, A. King, F. Murray and R. A. Shearer.

Home Industries, Left to Committee to be appointed from Women's Institute.

Buildings and Grounds, Messrs. J. McKinnon, N. G. U. G. H. A. B. H. R. Lindsay, C. E. Tillison, J. A. Gaudin and D. B. Vinborn.

Gate and Stand, Messrs. A. F. Bonifas, P. E. Host and J. Laidlaw.

Publicity, Messrs. W. J. Mackenzie, R. E. Moffatt and Dr. Stevens.

Finance, Messrs. F. W. Elliott, N. O. Holmes, W. J. Stephen and A. J. Burnside.

Institute Meetings and promotion of Community Breeding, Messrs. J. R. Watt, W. J. Stephen, P. M. Abel, N. Taittinger, O. J. Berg, A. E. Hunter and J. L. Salmon.

Dairy and Domestic Products, Miss Hayward, J. B. Bosc, E. G. Barber and Representatives from Women's Institute.

Under somewhat different climatic conditions it is interesting to note that some of these men who were neither brought to our notice along this line comes from Carstairs and is from the

same poultry fancier who had the honor of displaying the distinction held by the Capital City last year. Mrs. M. Constantine of Carstairs, claims to have had her first batch of chickens presented to her by the mother hen on Wednesday January 27th, and four days later a second batch were hatched and to-day she can boast of having eighteen fine healthy pure bred chickens of the White Orpington variety. It is interesting to note also that while Mrs. Constantine's early chickens of last year were not the earliest hatched in the province of Alberta yet they hold the distinguished honor of being the earliest hatched chickens to capture first prizes at both the Edmonton and Calgary poultry shows during the season.

We wonder if the poultry fanciers of Clareisholm and district are in a position this year to best the foregoing record for the Province.

MARKET FOR TWO ROW BARLEY

Nicholas Taittinger, one of our local farmers recently received a letter from Glasgow, Scotland, stating that the city alone would furnish a market for all the two-row barley that could be grown in Alberta. Mr. Taittinger states that this part of the country, between High River and the Red Sea, is the best land in the world for growing two-row barley, and he has proved it.

Agricultural School vs. Caley

The ice sharks of the Agricultural School entertained the hockey enthusiasts of Caley at a game of the local rink. Tuesday afternoon in the presence of a good crowd of spectators, by piling up somewhat of a cricket's score.

The local boys showed superiority at almost every play of the game. At the finish of the game the score stood 9-0 in the favor of the school, although beaten by a large score, the Caley boys proved themselves to be a game lot of losers. The lineup is as follows:

Agricultural School	Caley
Coney goal	Hansen
F. Coote point	Amundsen
Chaffey	Nelson
Folkard	rover
Walker	centre
right wing	Caspiell
left wing	Straghan

Writes Explanation

To Mother And Sisters

A formal inquiry into the death of Paul B. Reed, who was found shot through the head at his ranch near Milled, Tuesday evening, February 16, was held by Inspector Tucker of this place, the coroner last Wednesday afternoon, and after ascertaining the facts he came to the conclusion deceased shot himself during a fit of despondency following a long illness.

A touching letter addressed to his mother and sisters intimating his intention to shoot himself was found in the room with the remains which he did the act was found near his body.

The bullet entered just over the right ear and passed clean through his head, emerging by the left ear. The remains will be taken to Seattle for burial, where his father, Col. P. B. Reed, is also buried.

Students Give Hard Time Dance

One of the most successful dances, which has been given at the Agricultural School this season was held last Friday evening when the students gave a hard time dance.

It was largely attended, and was well conducted while the hard time clothes provided a feature of the evening that carried along with it merriment and a happy feeling that one was at a truly informal dance where a "good time" was the order of the evening. The students were severely to be seen and those men who were neither overalls nor rugs and tatters felt out of place.

OF INTEREST TO RATE PAYERS

The question financing Town affairs is again becoming a serious problem.

The Town Council have given considerable time and thought to this problem and rate payers should agree that they have done wonderfully well under the conditions which they have had to contend with.

When, however, the financing has to be done by the levying and collecting of taxes it is simply impossible for the Council to keep the town's affairs in good standing without the co-operation and assistance of the citizens and business men of the town.

The amount of delinquent taxes standing on the tax roll is much larger than it should be and while a good many find it impossible to make payment of their indebtedness in full they should bear in mind that a partial payment would not only greatly assist the town in their immediate difficulties but would perhaps make the final payment of all dues much easier.

The town still owes the school district approximately \$5,000 it requires about \$200 per month to keep the school going, it can therefore easily be seen by these figures that if every one who are in arrears would pay a small part of the total amount owing it would enable the school board to keep their department going.

The Secretary-treasurer will accept part payments on taxes and unsecured debts which are in arrears but at the same time will take advantage of this arrangement more drastic methods of enforcing payments will have to be adopted.

Kindly give this your serious consideration and arranged make a partial payment monthly if you are not in a position to pay the whole amount of indebtedness immediately. An early call on the Secretary's office will be greatly appreciated.

WHIST DRIVE ENJOYED

On Thursday evening of last week Miss Eva Birken entertained about twenty of her friends at a whist drive. The game started about nine o'clock and continued a little over two hours. The prize winners for the evening's games were Miss Corvendale and L. Clark.

During the evening several vocal and instrumental selections were rendered.

After the games were finished the hostess served a most delicious lunch consisting of salads, sandwiches, cake and coffee. The participants of a most enjoyable evening's entertainment then proceeded to their homes.

A GREAT RELIEF

What an honest man our local editor is! He was demonstrated last week. The editor of this weekly piece of journalism sent a pair of trousers to his friend the local tailor to be cleaned and by some chance left 10 cents in one of the pockets, just at the time the editor was finishing, he remembers counting his cash on hand and it amounted to 38 cents, so, of course did not miss the 10 cents, for a week when he wondered what he had got into.

However, the trousers were returned by messenger, and on Sunday last donned them to go out to partake of a neighbor's goose fry and hospitality and in the right hand pocket found the lost 10 cent. Waneescour readers it was a great relief and will enable us to keep the wolf from the door till about Easter.

Farmers Handle Their Own Stock

The live stock department of the Farmers' Co-operative Elevator Company of Alberta which was established a little more than a year ago, will do a business this year in excess of \$1,000,000, according to the estimate of the officials in charge of the department. It ran ahead of the half million mark in the first year of its existence, and the record was set when sales in excess of \$200,000, at the rate of \$85,000 per month. It is the most profitable branch of the

Miss Florence Templeton, the delightful character woman, who accompanies Mr. Johnston's talented company, who appear here for one night only, March 5th, at the Opera House, playing "The Briton Burglar."

co-operative scheme of the organized farmers of the province. "The high price of feed is a temptation to the farmers to put their breeding stock on the market," said this official, "I am urging my friends to hold on to their breeding stock, because I believe that the price of a pair of next fall will break all records. Just as soon as the European market opens up the demand will be great in excess of supply, and the farmer who is in charge to carry over his breeding stock so that he will have pork for sale will get a price that will justify him for his trouble."

AVERRILL--ATKINSON

A very quiet wedding was solemnized on Wednesday, February 11th, at 11 o'clock at the home of Mr. and Mrs. N. S. Averill, Badger Place, when their daughter, Blanche Hazel, was united in marriage to Mr. Elmer Franklin Atkinson. The ceremony was performed by Rev. G. B. Byrd of Barons, in the presence of the members of the bride's family. The bride looked very pretty in a charming gown of combination of French union de soie and fine shadow lace and carried a bouquet of cream roses and lilies. After dinner the happy couple drove to Barons where they entertained for Calgary to spend their honeymoon. Mr. and Mrs. Atkinson are two of the best known and most highly esteemed young people of this vicinity and will have the wishes of a host of friends, for a long life of happiness and the highest success.

CARD OF THANKS

The undersigned desire to express their appreciation for the many kind wishes extended to them by their many friends during their recent and bereavement. MR. AND MRS. R. STOKES AND FAMILY.

Tenth Anniversary Celebrated

The Tenth Anniversary of the Methodist church in Clareisholm was commemorated on Sunday and Monday last. Rev. H. H. Colville

was an indication of the fact that the speech was vouching the sentiments of the people of Alberta and that the speaker had a fair grasp of the present day situation.

After the address the vocal solo of thanks were tendered, and the audience was dismissed after the singing of "God save the King". This another anniversary of the Methodist church was celebrated and all conceded that it was amongst the best ever held.

SOME HOCKEY GAME

Winning by a score of two to one the local married men administered the medicine of defeat to the aggregation of single men that loafed around the rink last Friday night. The encounter might be said to be not the fastest battle ever fought on the ice, even though the game was very evenly contested throughout the greater portion of it.

Besides loafing and hitting the ice too hard at times, and almost hitting the puck at other times, for which was a fence offence, the players were dressed in the latest of New York fashions in ladies' dresses, with hats the newest Parisian design and used a football for a puck.

In the first half of the game one of the players thought it was a football match and batted the puck over the fence. Acentary player was sent after it besides finding the ball discovered Euphemism compulsion the married men's cover point on the fence, resting and changing his boots to the right feet. Another doughty goal player was in Ruth Jones, who made himself prominent for the number of times he was on the fence for loafing.

We will try to give below the lineup with the description of the costume of each player, but not being very well posted on some of the new fashion sheets we only give the description as near as we can judge. It is not entirely correct it will be considered (typographical error).

For the married men, Ervington (Chas.) Rumpin, who wears a gown of biscuit chamois trimmed in green satin, carried for the goal, Cynthia (Lay) Redden, gown in mauve satin, with a hat of white ruffled bodied, looked most charming as he was chasing the point. Euphemism (A. E.) Thompson in a costume of black silk with large trimmings in green point when playing the game. Genevieve (J. F.) Reynolds, in a most handsome gown of point de spirit over black tulle, played the position of rover somewhat of a Ophele (Wm.) McKenzie, was centre-man and played a goal game in a dress of sequin tulle over silk null. Adelaide (Eric) Moss, in a gown of black and white skirts (it having six times considerable above the ankle) a mauve chiffon, was right wing, while Rachel (Stanley) Wyck, in silk point de spirit and shadow lace, acted as left wing.

The single men had Helene (Roy) Goady looking after the goal. He wore a dress of pink chiffon trimmed with marabout. Geraldine (Earl) Cole with a crepe de chene gown of drab trimmed with old rose was main point. For cover point Melinda (Grant) Clark in a gown of heliopsis and/or lace over yellow satin. Helen (Roy) Leonard in black silk was covered with cream lace played rover, Josephine (Mel) Cook wore black silk null and shadow lace over satin and played centre. Sophia (John) McNiel in a handsomely decorated gown of yellow silk, trimmed with black velvet played right wing, sometimes, and Ruth (Ernie) Jones, who when not loafing, running from the players to the fence for misbehavior, was supposed to be playing left wing one of the most charming gowns of the evening, it being a navy blue gown shot silk, with trimmings of lace and chiffon of orange and scarlet hue. Mandy (F.) Watkins, gorgeously arrayed in a gown of crepe de chene trimmed with marabout, ran loafing, running from the players to the fence for misbehavior. At the finish of the game there was considerable discussion in deciding the score, the married men claim the victory, but the single men were in favor and the single hats held out that it was a tie and two, but the real score is as we give above.

The belief seems to be growing in New York that it is about to supplant London as the financial centre of the world. It may be so, but so far there are not many signs of change. Bagehot, the economist, in his famous work on "Lombard Street," written forty years ago, pointed out that while some European countries were very rich, their money was largely in the hands of individuals, scattered in tens and fifties through the whole nation and in great part hoarded; whereas in England money is more "concentrated," that is to say, the floating loan fund which can be lent to anyone for any purpose at a price is "very much larger than elsewhere." The United States is an exceedingly rich country, but the existing wealth is occupied in the main, in developing home resources with the aid of foreign capital. At the present moment it is estimated that the Americans own England well on to five thousand million dollars, on which, of course, interest has to be paid. England owes nothing abroad, but on the contrary, derives an enormous income from her foreign investments which goes to swell what Bagshot termed her available loan fund. Since his day deposits in British banks have increased at an amazing rate and the insurance companies have likewise vast sums at their command, which they are prepared to advance at a moment's notice upon fair prospect of profitable gain. In the States there is nothing like so great a volume of tradeable or liquid capital. True, the war is involving Britain in a tremendous expenditure on her own account, and that of her Allies, but she is carrying the burden with comparative ease, and has abundant capital to spare for home enterprises of all kinds, although naturally enough, the foreign borrower is not for a moment so welcome as he used to be.

Of late New York has been lending to Canadian municipalities and other institutions, but the aggregate is, after all, not large. While the good times return, probably all the money the Americans can raise will be required for their own affairs whilst England, with her delicate financial machinery, ready at hand all over the world, will doubtless resume business as the world's banker and hold the position for an indefinite time to come.

**Finding Money To
Run Municipalities**

"The rural municipal ordinance was placed on the statute book by a Liberal government, but it requires a most Conservative government to operate it," said A. H. Torrell, secretary of the Rural Municipalities Association, at a meeting in the course of an address on rural, municipal and financial problems. Mr. Torrell's address consisted of a brief outline of the methods of finding money to run the municipality and a most distinct as well as flaming but insurance and destroying views.

In answer to a question as to the amount of tax per quarter section, excluding land insurance tax, he stated that it came to between \$1.00 and \$3.80, and that for this the taxpayer was given an ounce of strychnine (to kill gophers), a remark which caused great laughter.—Calgary Herald.

Pyjama Kids Vs. Bloomer Girls

The married men and single men, better known from their "pajamas" than from their "bloomers" are the Pyjama Kids, met again on the last night in another one of those strenuous hockey matches. The line up was precisely the same as that of the game last Friday night.

After exhibiting many new points in the game on each side and with the strong defence of the Bloomer Girls, the score stood at the finish five to two in their favor.

Yes, There Is MONEY In EGGS

Have you ever stopped to think that a hen will lay 150 eggs a year. Certified statistics tell us that it costs five a dozen to produce eggs. People in the business say that fresh eggs average five a dozen. This leaves a net profit of five a dozen. 300 net on 150 eggs is \$3.75, which you should make net profit on each hen. If you had 1000 hens it would be \$3,750 you should make net profit. If you are earning less than this amount per year, come to my office and let us talk the matter over. You can buy a model farm for \$150 cash, the balance spread over term years. Model farms are all cleared—no stumps or stones, to coincide with. They are situated on the main line of the Canadian Northern Railway, are connected with the city of Kamloops by a good automobile road, the Hydro-Electric Line of the city of Kamloops passes through the property which will supply light and power. Model farms are situated right on the bank of the North Thompson river, which supplies ample water for irrigation. Model farms are cleared farms. The price is only \$150 an acre or \$750 for five acres. \$150 cash and balance spread over five years.

COW'S INDIVIDUALITY

It is still possible to find dairymen who never dig deeper than the surface knowledge of the whole herd giving so much milk, counting simply the total weight sent to the factory one day, or per month, or again simply the average yield per cow for the factory season.

A plain fact that cannot be impressed too strongly is that cows have individuality people have personality. What makes two cows yield quite different weights of milk and fat when all conditions are practically equal? Even supposing a cow's interior economy were made visible and luminous, has any man the requisite knowledge to fathom all the mysteries of milk manufacture?

We do know this, the yield of milk and its percentage of fat are apt to vary from day to day most strangely. The first half of the milk drawn may not contain more than half as much fat as the latter half; the cow may have some slight sickness; some of her delicate nervous functions may be deranged temporarily; extremes of weather, undue exposure, excitement may all influence the yield of milk and the test. Hence it is clear that the sensible way to judge a cow's performance is not by any one test or weight, but rather on her total yield for the season. A cold, matter-of-fact "average" does not give necessary information cows have individuality, which is worth studying so that they may repay their owners for intelligent handling. If you are not already testing each cow you own, write the dairy division, Ottawa, for forms for recording milk yields and feed.

LOVE AND GOLD

Who Doesn't Thirst for Them?

One man thirsts for Gold—one for Love.
These gripping human emotions make a cringing, loathsome beast of one man—a master, a genius and a hero of the other.

But the girl, Ruth Gallon. What of her?

Hers was the most nerve-racking, vivid, thrilling experience of all. It was she who was practically buried alive—threatened on every side with certain death; by rushing water, with fire, falling rocks, yet it was she who found the key to perfect happiness.

This key is the MASTER KEY—the one key in all the world that every human seeks. You can learn of this supreme happiness by seeing the sublime MASTER KEY serial now running at the

These figures are compiled by the Rev. Michael Adler, the senior Jewish rabbi in the city. He said that his son, Michael Adler, has a son in the Royal Fusiliers who was killed at Gallipoli from the front some time ago.

"There were very many Jews in the Russian army," he says, "and I have seen only 500 Jews in the service. Since the war all sections of the community have been reduced. Two of our men have received decorations for gallantry and there is a large number of Jewish officers and men in the Australian Imperial Force in Egypt, in the Indian Army in Persia, in Samoa and New Guinea."

Letting the Light in Though

THE REVIEW

Shops and businesses that are illuminated by advertising have a vitality and efficiency not possessed by shops and businesses that drape their service and activities with a pall of silence.

Everybody knows that it is in all ways good to let much light into dwellings, factories, shops and stables—into all places where life is and where health and efficiency are desired.

We commend to the merchants of this community the advantages and good results of persistent advertising in our columns, for the public always goes where light is—the public shuns dark places. Light means welcome and confidence.

Advertising will go far towards retaining the loyalty of old customers and winning new ones. Fifty-two advertisements in our columns will prove an excellent salesman—one of these yearly, will cost you be less than what you are now paying to some salesman behind your counter.

Meadow Creek Vs. C. A. School

On Thursday afternoon St. Marshall and his bunch of rubber chasers from the hills, played a friendly game of hockey with the Clareholm Agricultural School. The game started at three o'clock and was one worth watching. Thrills and then more thrills. The first half ended a tie and the second the Meadow Creek fellows seemed to have more staying power, so much for the farmers, and finished the game 3-2 in their favor. The local boys deserve credit for the showing they made.

Both teams had a strong bunch of supporters which always helps the boys along.

The line up was as follows:
Meadow Creek Clareholm
Bell goal Hansen
Masson point McLean
Harvey cover point Neilson
Vance rover Harvey
Bisset centre Abel
Bell right wing Caspell
Marshall left wing Straghan
Referee—Peter McNichol.

Notice to the Electors of the Town of Clareholm

Notice is hereby given that the town of Clareholm will apply to the Legislative Assembly of the Province of Alberta at the next session thereof for an Act empowering the Council of the Town of Clareholm to consolidate and renew the debts created under By-laws, number 19, 42, 43, 64, 73 and 92 of the town of Clareholm and to extend the time of payment thereof.
